

Ancient wisdom joins modern science in a daily ritual of skin renewal.

With AYUR-MEDIC you can now, for the first time, effectively treat acne, rosacea, hyperpigmentation (dark spots) and combat the forces that age your skin.

Introducing AYUR-MEDIC, a highly effective cosmeceutical product line that uses the most advanced dermatological research to date. This revolutionary skin care line strikes the perfect balance between time-honored holistic principles and state of the art medical research to provide optimal results.

Two highly accomplished physicians – Dr. Raj Kanodia, a plastic surgeon, and Dr. Ezra Kest, a cosmetic dermatologist – along with a team of research professionals with three decades of experience serving the salon/spa industry, together created AYUR-Medic's breakthrough product line. Featuring both Ayurvedic herbs and proven anti-aging compounds, each product is uniquely formulated to maximally penetrate the skin, delivering all active ingredients with growth factors that help stimulate collagen synthesis. The goal is to stimulate collagen production, a process which can work to fill in wrinkles, prevent further oxidative damage caused by free radicals, and give your skin
